

Notice

Notice of Revocation of Batelco's Individual License for Paging Services and Individual License for Public Access Mobile Radio Services.

The Telecommunications Regulatory Authority ("the Authority") of the Kingdom of Bahrain has received a request from Batelco to revoke its Individual License for Paging Services ("Paging") License and Individual License for Public Access Mobile Radio Services ("PAMR") License.

The Authority is satisfied that Batelco does not provide Paging and PAMR services and therefore does not require Paging and PAMR Services Licenses to operate.

Should any person object to the revocation, please notify the Authority in writing with justified reasons not later than 12 December 2010.

If no comments are received by 12 December 2010 the Authority will deem the Licenses to be cancelled and as such Batelco may no longer offer telecommunications services under Paging and PAMR Licenses after this date.
