# REQUEST FOR PROPOSAL

Design and management of a competitive process for the award of a 3<sup>rd</sup>  
Mobile Network Operator (MNO) Licence in the Kingdom of Bahrain

## CLARIFICATION AND EXTENSION OF DEADLINE

On 21 May 2008 TRA published a Request For Proposals for the design and management of a competitive process for the award of a 3<sup>rd</sup> Mobile Network Operator (MNO) Licence in the Kingdom of Bahrain. This can be found at TRA's website at

<http://www.tra.org.bh/en/pdf/3rdMNORFP21.5.08Final.pdf>

TRA has received a number of queries seeking clarification on whether TRA will be retaining external legal counsel separately to the successful consultants.

TRA confirms that it is not at this stage intending to retain its own external legal counsel for the purposes of advising on the design and management of the licence award process. TRA will assess all proposals received on a case by case basis and if the proposals include legal support this will be reviewed in the assessment.

As such should bidders wish to renew or supplement their proposals to include subcontracted legal counsel they may do so.

TRA therefore extends the deadline for the receipt of the proposal or supplements upon proposals already sent to TRA from 5pm on 19 June 2008 **to 5pm on 26 June 2008.**
