ANNEX 1
AMENDED NFL LICENCE
INDIVIDUAL NATIONAL FIXED SERVICES LICENSE
LICENSE
GRANTED
TO

[______]

Commercial Registration [______]  

BY THE TELECOMMUNICATIONS REGULATORY AUTHORITY
UNDER THE LEGISLATIVE DECREE 48 OF 2002 WITH RESPECT TO
TELECOMMUNICATIONS

Document number: LSU/LC/258 Version 1.0

Date issue: 6-September-2009

Approved by the General Director of the TRA
1. GRANT OF LICENSE

1.1 The Telecommunications Regulatory Authority (the "Regulator") hereby grants [__________] (the "Licensee") this license under the Telecommunications Law promulgated by Legislative Decree No. 48 of 2002, by virtue of which the Licensee is authorized to install, operate and manage the national fixed telecommunications network, and to provide the telecommunication services, described herein in the licensed area set out herein (the "License").

1.2 This License shall be subject to the provisions herein stated, the Telecommunications Law and any regulations issued thereunder.

2. DEFINITIONS

2.1 For the purposes of this License:

(a) A meaning or definition provided for any word, phrase or expression under the Telecommunications Law shall also be applicable to such word, phrase or expression in this License; unless the context requires otherwise.

(b) A reference to significant market power or dominant position shall be a reference to such power or position, as the case may be, for the relevant market as determined by the Regulator from time to time.

(c) The following terms and expressions shall have the following meanings unless the context requires otherwise:

"Affiliate" means, as used with respect to any person, any other person directly or indirectly controlling, controlled by, or under common control with, that person. In the case where one person owns, directly or indirectly, 50% or more of the share capital, voting rights, securities, or other ownership interest of another person, both such persons shall be deemed an affiliate;

"Amendment Date" means [5 May] 2019;

"Basic data service" means a telecommunications service that consists of the conveyance of messages, excluding:
(a) any additional service having been provided in respect of the conveyance of those messages;
(b) any deliberate removal or addition to the information content of those messages;
(c) two-way real-time speech; and
(d) mobile radiocommunications;

"Basic voice service" means a telecommunications service involving the transmission of two-way real-time speech, excluding:

(a) any additional service having been provided in respect of the real-time two-way speech conversation;
(b) any deliberate removal or addition to the information content of that real-time two-way speech conversation; and
(c) mobile radiocommunications;

"Call" includes any communication conveying voice and data:

(a) whether between persons and persons, things and things or persons and things;
(b) whether in the form of speech, music or other sounds;
(c) whether in the form of data;
(d) whether in the form of text;
(e) whether in the form of visual images (animated or otherwise);
(f) whether in the form of signals; and
(g) whether in any combination of the foregoing forms;

"Control" means, as applied to any person, the possession, directly or indirectly, of the power to direct or cause the direction of the management of that person, whether through ownership, voting or other means and "controlling" and "controlled" shall be construed accordingly;

"Effective date" means the date referred to in section 27.
“Emergency organisation” means in respect of any locality, the relevant competent body responsible for public police, fire, ambulance and coastguard services for that locality;

“Force majeure” means any event beyond the reasonable control of the licensee, including but not limited to fire, storm, earthquake, flood or other extreme weather conditions, acts of God, failure or shortage of power supplies, lightning, war, military operations, acts of terrorism or riot;

“Force Majeure” means any cause affecting the performance by the Licensee of any obligation hereunder arising from acts, events, omissions, happenings or non-happenings beyond its reasonable control including (but without limiting the generality thereof) governmental or States’ acts or regulations, fire, flood, inclement weather, terrorism or any disaster or an industrial dispute (other than relating to the Licensee’s own workforce) affecting the provision of Licensed services. Any act, event, omission, happening or non-happening only will be considered Force Majeure if it is not attributable to the wilful act, neglect or failure to take reasonable precautions of the Licensee, its officers, contractors, sub-contractors, agents, servants or employees;

“Free-phone services” means an automated reversed charge mechanism whereby a caller pays nothing while the person receiving such calls bears all costs;

“International telecommunications services” means the provision of telecommunications services between the Kingdom of Bahrain and countries or territories outside the Kingdom of Bahrain, or vice versa;

“Internet” means an integrated computer network through which machines used by users are connected to each other by means of the TCP/IP family of protocols;

“Licensed area” means the territory of the Kingdom of Bahrain;

“Licensed services” means all telecommunications services described in section 3.1;

“National fixed services subscriber” means any subscriber for the Licensed-Licensed services;

“National fixed telecommunications network” means a public telecommunications network which facilitates the conveyance by whatever means, including, but not limited to, fixed wireless technology, of signals between network termination points at fixed locations (including to an area of limited mobile range in the vicinity of the fixed location) within the Licensed-Licensed area but which does not comprise any network
equipment supporting cellular technology and which provides inter-cell handover in accordance with the relevant international standard for mobile radiocommunications;

“National fixed telecommunications service” means (a) any basic data service, basic voice service (and for as long as the licensee—Licensee is the holder of a value added services license, value added service reasonably related to the foregoing) other than an international telecommunications service or mobile radiocommunications and (b) offering access to or leasing telecommunications facilities to others;

“Operator assistance service” means a telecommunications service by means of which a member of the public may, at any time, request to be connected to another person by means of terminal equipment which is lawfully connected to a national fixed telecommunications network and which is capable of transmitting and receiving unrestricted two-way voice telephony services;

“Public emergency call service” means a telecommunications service by means of which any member of the public may, at any time and without incurring any charge or use any coin or other token, by means of any terminal equipment which is lawfully connected to a national fixed telecommunications network and which is capable of transmitting and receiving unrestricted two-way voice telephony services, communicate with any of the emergency organisations for the purpose of notifying such organization of an emergency;

“Public payphone” means a fixed telephone that (a) is connected to a national fixed telecommunications network; and (b) when in normal working order, cannot be used to make a telephone call (other than a free call or a call made with operator assistance) unless, as payment for the call, or to enable payment for the call to be collected: (i) money, or a token, card or other object, has been put into a device that forms part of, is attached to, or is located near, the telephone or (ii) an identification number, or a code or other information (in numerical or any other form), has been input into a device that forms part of, is attached to, or is located near, the telephone;

“Public voice services” means real time, two way voice calls provided between members of the public;

“Resale services” means licensed end-to-end retail telecommunications services offered to its subscribers by a licensed operator that are, subject to section 58 of the Telecommunications Law, purchased from the licensee—Licensee by another licensed operator for on-sale by such operator to end-users or other licensed operators, either alone or, together with such additional services as the other licensed operators may provide. For
the avoidance of doubt, resale services shall exclude \textit{Licensed} services involving interconnection with the \textit{Licensee's} national fixed telecommunications network;

"Structural separation" means the division of an integrated telecommunications business of a licensee into two or more separate legal entities so that each entity independently performs distinct licensed telecommunications activities and owns and has day-to-day control of the assets and operational capabilities, including employees, by means of which such activities are carried out;

"Separated Entity" means the legally separate entity established by Bahrain Telecommunications Company B.S.C. to deploy, install, operate, manage and maintain the Fixed Telecommunications Infrastructure Network and supply wholesale products and services (defined as Licensed Services in the Separated Entity's Fixed Telecommunications Infrastructure Network Licence) in the Kingdom, namely NBNetCo BSC (c);

"Separated Entity's Reference Offer" means the reference offer incorporating the products and services (including the price and non-price terms) to be offered by the Separated Entity, as approved by the Regulator from time to time in accordance with the requirements of the Telecommunications Law, the Access Regulation and any decision, determination, order and/or any other regulatory instrument issued by the Regulator;

"Telegraph service" means the transmission of telegraph signals via a national fixed telecommunications network;

"Telex service" means a service which is provided for the purposes of text communication only by directly transmitting text messages between terminal equipment connected to a national fixed telecommunications network;

"Terminal equipment" means any appliance, apparatus or accessory connected to the public telecommunications network to enable reception and transmission of telecommunications services; and

"Value added services" means enhanced or value added telecommunications data and/or voice services (other than public voice services) that act on the format, content, code or protocol of information in order to provide the user with additional or different information or that involve national fixed services subscriber interaction with stored information, including computer and data processing services, data information and exchange services, credit card verification services but excluding those transmission services to or over the internet that require an internet service provider license.
3. LICENSED NETWORKS AND SERVICES

3.1 The licensee is authorised on a non-exclusive basis to provide by means that include its national fixed telecommunications network the following services in the licensed area:

(a) national fixed telecommunications services;
(b) public payphone services;
(c) telegraph services; and
(d) telex services.

3.2 The licensee is authorised to connect its fixed telecommunications network to:

(a) any Fixed Telecommunications Infrastructure Network in line with any agreements entered into with any holder of a Fixed Telecommunications Infrastructure Network Licence;
(b) any telecommunications network operated under a telecommunications license; and
(c) any telecommunications equipment approved for connection in accordance with section 38 of the Telecommunications Law and any regulations issued pursuant to the Telecommunications Law.

3.3 The licensee may, with the prior written approval of the Regulator, provide any of the services through an affiliate or sub-contract the provision of any or all of the services to another person; provided, however, that the shall continue to be fully liable for any obligation arising in relation to the provision of such services. The Regulator may revoke its approval at any time by providing reasonable advance notice to the licensee in writing. The prior written approval of the Regulator shall not be required if such affiliate is and remains wholly-owned by the licensee, provided always that the Regulator shall be notified of such arrangement.

3.4 The Licensee shall, in accordance with a timetable and process to be determined by the Regulator (in consultation with the Licensee and other stakeholders), migrate the parts of
its National fixed telecommunications network that may be mandated by the Regulator to the Separated Entity and/or decommission such assets. The migration and/or decommissioning timetable and process shall include the necessary amendments required to this Licence as a result of the migration and/or decommissioning of the relevant parts of the Licensee’s National fixed telecommunications network. These include without limitation relevant amendments to and/or disapplication of the relevant provisions in section 14 (Provision of Access), section 17 (Network Termination), section 20 (Access to Land) that are dependent upon the Licensee operating and managing a National fixed telecommunications network.

3.4 For the avoidance of doubt, the Licensee is not authorised to engage in broadcasting.

3.6 Unless otherwise approved by the Regulator, from the Amendment Date of this Licence the Licensee is not authorized to install any additional fixed fibre assets in the Kingdom, other than those under the Separated Entity’s Reference Offer. If such an approval is granted by the Regulator, it may be subject to such conditions as the Regulator deems necessary to ensure the objectives of the Telecommunications Law (including conditions relating to the migration and/or decommissioning of any such additional fixed fibre assets to the Separated Entity). The Licensee may maintain its existing National fixed telecommunications network including any existing fibre assets installed by the Licensee at the Amendment Date of this Licence within the Licensee’s existing National fixed telecommunications network and/or any additional fibre assets approved by the Regulator under this section 3.6. The Licensee’s rights to maintain such fibre assets shall apply until the migration and/or decommissioning of such fibre assets envisaged at section 3.4 has occurred.

4. LICENSEE OBLIGATIONS

4.1 The Licensee shall comply with:

a) the terms of the Telecommunications Law and any regulations promulgated thereto; and

b) the terms of all decisions, determinations, orders and/or any other regulatory instrument issued by the Regulator.
5. UNIVERSAL SERVICE

5.1 If the licensee is a public telecommunication operator with significant market power, it shall on request provide basic public telephone services (as this term is defined in Chapter XIV of the Telecommunications Law) on a non-discriminatory basis to every person anywhere within the licensed area via a public telecommunications network at its prevailing standard rates. Such services shall be provided in accordance with the quality of service requirements specified in section 401.

6. PUBLIC PAYPHONE SERVICES

6.1 Although the licensee is not obliged to provide public payphones, if it does provide such public payphones, the licensee shall ensure that the following telecommunications services are accessible at all public payphones forming part of its national fixed telecommunications network:

(a) basic voice services;
(b) directory information services;
(c) public emergency call services;
(d) free-phone services; and
(e) operator assistance services.

6.2 All public payphones provided by the licensee shall display a notice specifying:

(a) the minimum charge for connection, call charge information and permissible methods of payment;
(b) the location of the public payphone;
(c) a statement that emergency calls can be made without charge, whether by the use of coin or otherwise;
(d) a statement as to whether or not incoming calls can be received; and
(e) contact information in the event of service complaints.
6.3 The licensee-Licensor shall be responsible for the installation, maintenance and prompt repair of its public payphones.

6.4 The licensee-Licensor shall within three (3) months of the effective date-Effective Date provide the Regulator with a list of locations of all public payphones and update such list on an ongoing basis, but in any event at least semi-annually thereafter.

6.5 The licensee-Licensor shall obtain the prior written approval of the Regulator if it wishes to withdraw any public payphone from service. If such approval is obtained, the licensee-Licensor shall display a notice to that effect at the public payphone concerned not less than sixty (60) days before service is withdrawn.

7. PROVISION OF PUBLIC EMERGENCY CALL SERVICE

7.1 The licensee-Licensor shall ensure by means of its national fixed telecommunications network that any end-user using terminal equipment connected to the licensee’s-Licensor’s national fixed telecommunications network shall have access to a public emergency call service.

7.2 The licensee-Licensor shall ensure that “999” or such other numbers as are designated by the Regulator as public emergency call service numbers are continuously available without restriction so that any end-user using terminal equipment connected to the licensee’s-Licensor’s national fixed telecommunications network dialling such number is provided with a public emergency call service at any time.

8. PROVISION OF DIRECTORY INFORMATION SERVICES

8.1 The licensee-Licensor shall update directory information promptly and shall provide or make available, free of charge, printed directories in both the Arabic and English languages upon request to any end-user using terminal equipment connected to the licensee’s-Licensor’s national fixed telecommunications network, the form and content of which may be determined by the Regulator from time to time. Such directories shall include at a minimum the name and telephone number of each of the licensee’s-Licensor’s subscribers and those of other licensee-Licensor operators (other than subscribers who have requested the licensee-Licensor not to publish such information in relation to him) and a list of national and international dialing codes.

8.2 The licensee-Licensor shall provide directory information services upon request to its subscribers, and the tariff, if any, charged therefor shall be approved in writing in advance by the Regulator. The obligation to provide directory information shall not
apply in respect of any subscriber who has requested the licensee-\textit{Licensee} not to provide directory information in relation to such subscriber.

8.3 The \textit{Licensee} shall provide any licensed operator access to the \textit{Licensee}'s directory information on request, in such form and on reasonable and fair terms as may be determined by the Regulator, provided that:

(a) the licensed operator undertakes to use the information only to provide directory information services or for the routing of calls;

(b) the licensed operator undertakes that it will not give its subscribers directory information services in respect of any subscriber who has requested the \textit{Licensee} not to provide such information in relation to such subscriber;

(c) the licensed operator provides access to the \textit{Licensee} to its own directory information on a similar basis or if the licensed operator is not yet fully operational, provides reasonable undertakings to provide such information; and

(d) the provision by the \textit{Licensee} to the licensed operator of the information is not unlawful.

8.4 The \textit{Licensee} shall use all reasonable efforts to provide its national fixed service subscribers, upon request, with access to directory information services available in other countries to which the \textit{Licensee} routes calls. Any tariff charged for access to such services shall be subject to the prior written approval of the Regulator.

9. **PROVISION OF OPERATOR ASSISTANCE SERVICES**

9.1 The \textit{Licensee} shall provide, or provide access to, operator assistance service to users, upon request, by means of its national fixed telecommunications network.

9.2 The tariff, if any, charged by the \textit{Licensee} for the operator assistance service referred to under section 8.1-9.1 above shall be subject to the prior written approval of the Regulator.

10. **RELATIONS WITH SUBSCRIBERS**

10.1 Without derogating from section 55 and section 56 of the Telecommunications Law, the \textit{Licensee} shall publish a code of practice on subscribers affairs approved in writing by the Regulator, giving guidance to the \textit{Licensee}'s national fixed
service subscribers in respect of any disputes and complaints relating to the provision by the licensee—Licensee of the licensed—Licensed services.

10.2 The licensee—Licensee shall prepare an initial draft of the code of practice on subscriber affairs and submit it for review by the Regulator within three (3) months of the effective date—Effective Date.

10.3 The code of practice on subscribers affairs shall contain guidelines on the following issues:

(a) complaints;

(b) dispute settlement;

(c) location of customer service departments;

(d) quality of service;

(e) provision of ancillary services;

(f) other matters dealt with in the terms of service of the standard subscriber agreement referred to in section 9.5—10.5; and

(g) guidelines on service termination.

10.4 After approval of the code of practice by the Regulator, the licensee—Licensee shall report to the Regulator on an annual basis (within one (1) month of the end of the licensee’s—Licensee’s accounting period) on the performance of the licensee—Licensee in meeting the guidelines set out in the code of practice on subscribers affairs, and on the progress made in implementing the guidelines.

10.5 Within three (3) months of the effective date—Effective Date, the licensee—Licensee shall submit to the Regulator for its review a form of standard agreement containing the terms for the provision of licensed—Licensed services to national fixed service subscribers (the “standard subscriber agreement”). The Regulator may raise objections and require the introduction of such modifications as the Regulator deems necessary. The licensee—Licensee may submit a different standard subscriber agreement for use by similarly situated national fixed service subscribers of a specific category, provided that all such categories shall be objectively justified and do not result in undue discrimination. If no objections are raised or modifications required by the Regulator within thirty (30) days of the submission of such form, such form may be used by the licensee—Licensee.
10.6  Any modifications to such agreement also are subject to the foregoing provisions. In addition, the Regulator may subsequently order the introduction of any modification to such agreement after it becomes aware of any fact or circumstance which requires such modification in order to safeguard the interests of subscribers.

11. QUALITY OF SERVICE REQUIREMENTS

11.1 The licensee shall meet the additional quality of service requirements determined from time to time by the Regulator pursuant to a regulation (the “quality of service requirements”).

11.2 The licensee shall ensure that it maintains information records in a form to be approved by the Regulator within six (6) months of the effective date. For the purpose of satisfying the Regulator that the licensee is meeting the quality of service requirements as specified in section 11.1, and the licensee shall provide quarterly updates to the Regulator concerning such requirements.

12. INTERRUPTIONS TO THE LICENSED SERVICES

12.1 The licensee shall not intentionally interrupt or suspend the operation of its national fixed telecommunications network (or any part thereof) in the normal course of business, nor may it in the normal course of business suspend the provision of any type of service without having first obtained the prior written approval of the Regulator (including approval of a scheduled service outage plan) and provided reasonable advance notice to persons to be affected by such interruption or suspension.

12.2 The licensee may suspend or interrupt the operation of its network (or part thereof) without prior notice, but only for the shortest period practicable under the circumstances, where:
   
   (a) it has been directed to suspend or interrupt service by a Court, regulator or other relevant authority;
   
   (b) it is necessary to do so in order to prevent imminent risk of danger, damage or injury to persons or property (including the security or integrity of any telecommunications network).
13.  **TARIFFS OF LICENSED SERVICES**

13.1  From the effective date, Effective Date, until the date on which the relevant regulation under section 58 of the Telecommunications Law dealing with tariffs becomes effective, the licensee's Licensee's tariffs shall be in effect.

13.2  If the licensee Licensee has significant market power:

(a)  From the date on which the relevant regulation dealing with the tariffs of licensees with significant market power becomes effective, the tariffs of the licensee Licensee shall be subject to the relevant regulation made under section 58 of the Telecommunications Law.

(b)  If the licensee Licensee wishes subsequently to change the tariffs for a licensed Licensed service, it must, unless otherwise directed by the Regulator, notify the Regulator of the proposed change at least forty-five (45) days prior to the date on which the proposed change is to come into effect.

13.3  The licensee Licensee shall ensure that it publishes in accordance with the standard subscriber agreement and keeps updated a list of applicable retail tariffs, and makes that list available on its website, at its place of business, and to any person who requests a copy.

14.  **PROVISION OF ACCESS**

14.1  Subject to section 14.2, if the licensee Licensee is a public telecommunications operator in a dominant position, the licensee Licensee shall provide access to its national fixed telecommunications network on the reasonable request of any licensed operator in accordance with section 57 of the Telecommunications Law. Access shall be provided in a manner that is non-discriminatory and at a point or level within such network that is determined by the Regulator to be technically feasible and consistent with the most efficient delivery of telecommunications services to the ultimate consumer of such services.

14.2  The licensee Licensee shall provide the access within a maximum period from the date of request as shall from time to time be determined by the Regulator or set forth in the regulations.

14.3  The licensee Licensee shall not be required to provide access where in the Regulator’s view it is not reasonable to require the licensee Licensee to provide access,
including, but not limited to, where it would expose any person engaged in provision of the access to undue risk to health or safety.

14.4 In accordance with section 57(e) of the Telecommunications Law, the Regulator may determine all tariffs to be made for the provision by the licensee of access. In determining such tariffs the Regulator shall consider international benchmark charging levels for a similar service and conditions prevailing within the licensed area, including scale, but, in any event, shall ensure that such tariffs are:

(a) cost oriented and sufficiently unbundled so that the acquirer of access services does not pay for network components or facilities that it does not require; and

(b) in all cases reasonable and, with respect to similarly situated users, nondiscriminatory.

15. PROVISION OF SERVICES FOR RESALE

15.1 Subject to any regulations on interconnection and to the provisions of this section, the licensee shall, if the licensee is in a dominant position, within six (6) weeks of a request by a licensed operator, enter into a written agreement with the licensed operator to provide services in the relevant market as are reasonably requested to enable that licensed operator to provide resale services in such market. Where the licensee and such licensed operator cannot agree the terms of such agreement within such period of time, either party may refer the matter to the Regulator in writing for determination of such terms within thirty (30) days from referral.

15.2 The licensee shall not be required to enter into an agreement under section 15.1 where to do so would, in its reasonable opinion and with the agreement of the Regulator:

(a) cause or would be likely to cause danger, damage or injury to any person or to any property; or

(b) interfere with the operation of its national fixed telecommunications network or the provision of telecommunications services over such network.

15.3 The licensee shall ensure that the agreement referred to in section 15.1 above is offered on terms and in accordance with tariffs approved or determined by the Regulator and shall provide the Regulator with a copy of each such agreement within three (3) days of its signing.
16. **INTERCONNECTION WITH OTHER PUBLIC TELECOMMUNICATIONS OPERATORS**

16.1 If the licensee is a public telecommunications operator in a dominant position, it shall provide interconnection to other public telecommunications operators in accordance with section 57 of the Telecommunications Law.

17. **NETWORK TERMINATION**

17.1 The licensee shall establish a network termination point at the subscriber's premises that shall constitute the boundary of its network. The licensee shall permit a subscriber to connect any cabling owned by that subscriber at that subscriber's premises provided such connection is to a network termination point only and is in compliance with applicable regulations.

18. **BILLING**

18.1 The licensee shall upon issuing any bill in respect of any service ensure that every amount stated as due in the bill is no higher than the amount that represents the true extent of any such service lawfully provided by the licensee to the national fixed services subscriber in question.

18.2 The licensee shall, no later than six (6) months from the effective date, establish a procedure to ensure the accuracy of its billing system in accordance with section 17.1 above which must be submitted for prior written approval to the Regulator within four (4) months from the effective date. The Regulator shall issue its decision with respect to such procedure within two (2) months of such submission.

18.3 The licensee shall keep such records as may be necessary or may be determined by the Regulator to be necessary for the purpose of satisfying the Regulator that the billing process has the characteristics required above and the licensee shall for purposes of this licence retain all records for at least two (2) years from the date on which they came into being.

18.4 For the purpose of giving the Regulator assurance from time to time that the billing process meets the requirements of section 17.1, the licensee shall:

(a) furnish the Regulator with any information it requires;
(b) on reasonable notice, allow the Regulator (or any person authorised by the Regulator) access to any relevant premises of the licensee—Licensee during normal business hours; and

(c) on reasonable notice, allow the Regulator (or any person authorised by the Regulator) to examine or test the whole or any part of the billing process.

18.5 The licensee—Licensee shall, no later than twelve (27) months from the effective date Effective Date, provide itemised billing information to any national fixed services subscriber upon request in respect of the tariffs for any telecommunications services provided by the licensee—Licensee to such subscriber. If the regulator permits the licensee Licensee to charge for itemised billing information, any such charge is subject to the prior written approval of the Regulator.

19. NUMBERING

19.1 The Regulator shall, at the request of the licensee—Licensee, from time to time and in accordance with the national numbering plan, allocate to it:

(a) such quantity of codes and numbers as it may reasonably require; and

(b) such specific codes and numbers as it may request for such purposes as the Regulator may approve and which the Regulator is satisfied are not required for other purposes.

19.2 The licensee—Licensee shall prepare a numbering plan for the codes and numbers allocated to it by the Regulator in accordance with the national numbering plan for written approval by the Regulator. The licensee—Licensee shall furnish details of its numbering plan to the Regulator and keep the Regulator informed of material changes to its numbering plan as they occur. If the licensee’s—Licensee’s numbering plan is not consistent with the national numbering plan, the Regulator may direct the licensee Licensee to adopt and furnish the Regulator for its written approval a new numbering plan or to take such other reasonable remedial action which does not cause undue inconvenience to the licensee’s—Licensee’s national fixed services subscribers, as may be necessary to ensure consistency.

19.3 The licensee—Licensee shall install, maintain and adjust its national fixed telecommunications network so that such network routes messages and otherwise operates in accordance with the licensee’s—Licensee’s numbering plan and the national
numbering plan. The licensee shall not use codes and numbers other than those allocated to it from the national numbering plan.

19.4 The licensee may, where necessary and with the Regulator's prior written approval, levy reasonable tariffs in relation to allocation of codes and numbers to its national fixed services subscribers, but shall not be entitled to transfer or sell codes and numbers to other licensed operators other than in accordance with the national numbering plan and following written approval from the Regulator.

19.5 Where required for the efficient use of codes and numbers, the Regulator may require the licensee to return individual codes and numbers or blocks of codes and numbers.

19.6 Without derogating from section 40(2) of the Telecommunications Law, if directed by the Regulator or required by a regulation, the licensee shall provide number portability to any qualifying operator on tariffs and terms to be determined by the Regulator so as to enable the efficient implementation and utilisation of number portability.

19.7 Before issuing any direction for the purpose of section 19.6, the Regulator shall consult with the relevant qualifying operators and interested parties and shall take into account all representations made.

19.8 Until such time as the licensee offers the facility of number portability on request to any of its national fixed services subscribers, the licensee shall ensure that, with regard to any such subscriber, for a reasonable period after that subscriber has changed to a different supplier of national fixed telecommunications services either a telephone call to that subscriber's previous number can be re-routed to his or her new number for a reasonable fee, or callers are given an indication of that subscriber's new number without charge.

19.9 In this section "qualifying operator" means a public telecommunications operator holding a national fixed services license that (a) has notified the licensee in writing that it requests the provision of number portability in relation to such public telecommunications operator's national fixed telecommunications network from the licensee specifying the type or types and extent of number portability so requested, and (b) is able and willing to provide the same type or types and extent of number portability in relation to its national fixed telecommunications network to the licensee on reasonable terms and in accordance with any specifications
published from time to time by the Regulator intended to enable the efficient implementation and utilisation of number portability.

20. **ACCESS TO LAND**

20.1 The *licensee*—Licensee shall be entitled to use public and private properties in accordance with the provisions of Chapter XIII of the Telecommunications Law.

21. **RADIOCOMMUNICATIONS AND FREQUENCY ALLOCATION**

21.1 The *licensee*—Licensee may apply to the Regulator for the right to use telecommunications frequencies or frequency bands in accordance with a frequency license to be granted under section 44 of the Telecommunications Law.

21.2 The *licensee*—Licensee shall ensure that the radiocommunications equipment comprised in any of its radiocommunications stations is designed and constructed, used and maintained, so as not to cause any undue interference even when in use in compliance with the rules from time to time established by the Regulator.

21.3 The *licensee*—Licensee shall not permit or suffer any person to use its radiocommunications equipment comprised in any of its radiocommunications stations unless the person is under the control of, and authorised by, the *licensee*—Licensee.

21.4 The *licensee*—Licensee shall ensure that all persons using its radiocommunications equipment comprised in any of its radiocommunications stations are made aware of the relevant terms of this *license*—Licence and any other applicable license and comply with such terms.

21.5 Without derogating from section 77 of the Telecommunications Law, the *licensee*—Licensee shall permit any person authorised by the Regulator to have access to any of its radiocommunications stations and to inspect or test its radiocommunications equipment at any reasonable time or whenever an emergency situation exists, at any time, for the purpose of verifying compliance with the terms of the *license*—Licence, the provisions of the Telecommunications Law and regulations issued thereunder or for the purpose of investigating sources of radiocommunications interference.

22. **INTEROPERABILITY AND TECHNICAL STANDARDS**

22.1 The *licensee*—Licensee shall comply with relevant regulations and technical specifications issued by the Regulator in order to ensure interoperability of the *licensed*—Licensed services and its national fixed telecommunications network with telecommunic-
cations services and telecommunications networks provided by other licensed operators to the extent technically feasible.

23. **PRIVACY AND CONFIDENTIALITY**

23.1 The **licensee-Licencee** shall use all reasonable endeavours to ensure the privacy and confidentiality of information and business secrets obtained in the course of its business from any person to whom it provides the **Licensed-Licensed** services by establishing and implementing reasonable procedures for maintaining privacy and confidentiality of such information subject to any requirement under law.

23.2 The **licensee-Licencee** shall maintain sufficient information on its privacy and confidentiality procedures to satisfy the Regulator, at its reasonable request, that the requirements of section 23.1 are being met.

23.3 The **licensee-Licencee** shall not use or allow to be used any apparatus comprised in the national fixed telecommunications network which is capable of recording, monitoring, or intruding into calls unless it complies with applicable law.

24. **ANTI-COMPETITIVE PRACTICES**

24.1 Without derogating from section 65 of the Telecommunications Law, the **licensee-Licencee** shall not, alone or together with others, engage in or continue or knowingly acquiesce in any anti-competitive practices and, in particular, the **licensee-Licencee** shall:

(a) not engage in anti-competitive cross-subsidization;

(b) if dominant, not abuse its dominant position;

(c) not enter into exclusive arrangements with third parties for the location of its facilities that are required to provide any of the **Licensed-Licensed** services;

(d) not enter into any agreements, arrangements or undertakings with any person, including any supplier of services that compete with any of the **Licensed-Licensed** services, which have as their objective or cause the fixing of prices or other restraint on competition;

(e) not use information obtained from competitors if the objective or effect of such use is anti-competitive;
(f) make available to other licensed operators on a timely basis technical information about essential facilities and other commercially relevant information that is necessary for them to provide telecommunications service; and

(g) not (whether in respect of the tariffs or other terms applied or otherwise) show undue discrimination against particular persons or persons of any class or description as respects the provision of any licensed service.

25. ACCOUNTING REQUIREMENTS

25.1 The Licensee shall present in written form regulatory accounts for the licensed telecommunications activities in accordance with the applicable regulations.

25.2 The Regulator may require the Licensee to submit other accounting information it may require in order to effectively supervise and enforce the terms of this licence and the provisions of the Telecommunications Law.

25.3 If the Licensee fails to comply with its obligations under sub-sections 1 and 2 above or if the accounting system presented by the Licensee fails to achieve the objectives set forth in these subsections and the Regulator deems it necessary and appropriate in accordance with the provisions of section 3(e) of the Telecommunications Law, it may order the Licensee to implement structural separation within a period to be determined by the Regulator.

26. REQUIREMENT TO PROVIDE INFORMATION AND INSPECTION

26.1 Without derogating from section 53 and 77 of the Telecommunications Law, the Licensee is required to maintain such information as will enable the Regulator to carry out its functions under the Telecommunications Law in such manner as the Regulator may from time to time request. The Regulator shall have the right to request the Licensee to submit periodic reports, statistics and other data as well as request additional information in order to effectively supervise and enforce the terms of this licence, the provisions of the Telecommunications Law and the regulations issued thereunder.

27. LICENSE FEES

27.1 The initial license fee for the period from the effective date until the end of the calendar year in which the Licence is awarded shall be [BD35, 000].
27.2 The annual renewal license fee for each subsequent year shall be one (1) % of the gross annual turnover of the licensee attributable to the licensed services, payable in advance using the gross annual turnover of the previous year and adjusted for any change when the gross annual turnover for the current year becomes available.

27.3 The applicable license fee shall be paid to the Regulator in Bahraini Dinar:

(a) on or before the date that is thirty days after the effective date, for the period from the effective date until the end of the calendar year during which the license is awarded; and

(b) annually in advance no later than 31 January of each calendar year thereafter.

28. DURATION AND RENEWAL

28.1 The effective date for this license is 6 September 2009 (the “effective date”). This license shall be valid for a term of fifteen (15) years.

28.2 The Regulator shall renew the license upon request by the licensee for additional terms of ten (10) years upon expiration of the current license term, provided that the licensee is not, and has not been, in material breach of the license (in which case, the Regulator may veto renewal in accordance with section 30 of the Telecommunications Law).

29. MODIFICATION, REVOCATION AND TERMINATION

29.1 The license may be modified in any of the following ways at any time:

(a) Written agreement between the Regulator and the licensee;

(b) By the Regulator if the Regulator determines that such modification is necessary to make the conditions of the license consistent with terms being imposed generally in respect of all licenses issued in the same category, for the purpose of ensuring fair competition between licensees in that category or to the extent necessitated by technological development, provided that the Regulator shall have:

(i) given the licensee six (6) months written notice of the proposed modification; and
(ii) consulted with the 

(c) an order of modification by the Regulator in accordance with section 35 of the Telecommunications Law;

(d) a determination of the Regulator that such modification(s) is / are necessary to comply with the Telecommunications Law.

29.2 The 

(a) written agreement between the Regulator and the 

(b) an order of revocation by the Regulator in accordance with section 35 of the Telecommunications Law;

(c) if the is dissolved, or enters into liquidation, bankruptcy or equivalent proceedings or makes a general assignment for the benefit of creditors.

29.3 The shall automatically terminate upon the expiry of its term if it is not renewed in accordance with section above.

30. FORCE MAJEURE

30.1 If the is prevented from performing any of its obligations under this because of force majeure the the shall notify the Regulator of the obligations it is prevented from performing and the reason why as soon as practicable after it becomes aware or reasonably shall become aware of such force majeure.

30.2 The Regulator shall suspend those obligations referred to under section and the will not be liable to perform those obligations, for so long as the force majeure continues, only if and to the extent that the inability to perform could not have been prevented by taking steps specifically required under this or other reasonable precautions and the inability cannot reasonably be circumvented by the at its expense through the use of alternate sources, work-around plans or other means.
31. **DISPUTE RESOLUTION**

31.1 All disputes between the licensee and the Regulator arising out of this licence shall be resolved in accordance with the provisions of Chapter XVI of the Telecommunications Law.

31.2 The courts of the Kingdom of Bahrain shall have jurisdiction over disputes between the licensee and other licensees in connection with telecommunications activities which they are licensed to conduct: provided, however, that a party to such dispute may require the dispute to be referred to arbitration, in which case, unless such parties agree otherwise and provided that such agreement is not contrary to Chapter VII of the Civil & Commercial Procedural Law of 1971, the provisions of sections 67 to 71 of the Telecommunications Law shall apply mutatis mutandis.

32. **COMPLIANCE**

32.1 Without prejudice to the Regulator’s powers under the Telecommunications Law and/or any other regulatory instrument, if the Licensee fails to comply with its obligations under this Licence, the Regulator may take such action as it deems necessary and appropriate in accordance with the provisions of Article 3(c), 35 and/or 65 of the Telecommunications Law (as appropriate).

33. **NOTICES**

33.1 All notices from the licensee to the Regulator and vice versa shall be in writing and sent by registered mail with acknowledgement of delivery to the following addresses:

(a) If sent to the Regulator: PO Box 10353, Manama, Kingdom of Bahrain.

(b) If sent to the Licensee: P.O. Box 20385, Kingdom of Bahrain

33.2 Either party may change its above address by notifying the other party in writing at least fifteen (15) days before such change takes effect.
